SIZES OF STEEL HELMETS.

I am directed to say that it has been reported to the Government of India that local manufacturers of steel helmets in India have experienced that the size of 7¾" for steel helmets is too large for the average person and that in fact one of the Provincial Governments have refused to accept helmets of this size when they were supplied to them. The Government of India have therefore decided that helmets of this size should not be ordered and that it would be better to increase the percentage of 7" size by 2%. The Supply Department have been informed of this decision. The Provincial Government/etc. may therefore note that in accordance with the above decision, only the following sizes of steel helmets will be supplied in future in the percentages noted against them: -

6¼"	Size	3%
6½"	"	7%
6¾"	"	30%
7"	"	46%
7¼"	"	10%
7½"	"	4%
